THE COMING FAIRS.

During the months of September and October the farmers of the State will begin to occupy that share of the public attention which is their due. In August the agricultural fairs of California will commence, and one will follow the other in rapid succession until the series is closed with the Butte County Citrus Fair in December. These assemblages of the bone and sinew of the Commonwealth, says the S. F. Bulletin, should be productive of great good to the State at large, and undoubtedly much benefit is derived from them, though much more could and should proceed from such meetings. The opportunities for comparing the products of different sections of the State, for learning new and improved methods of cultivation, for ascertaining what new varieties of fruits can be profitably raised and for receiving an incentive to lift the standard of quality of products, are among the advantages of these annual meetings of producers, which have in the past been, it is feared, too much overshadowed by the horse-racing element. Last year, however, there was observed a many localities a disposition to relegate this feature of the agricultural shows to that position which it should occupy. The raising of fast horses is a business of importance, and it is natural that men whose calling causes them to make use of and become familiar with stock of all kinds should take a lively interest in fine animals, but that a fruit-grower should deem that his interest in a county fair should be concentrated upon the races is as little to his advantage and to the advancement of his peculiar industry as for a stock-raiser to give his sole attention to the character of sugar-beets displayed. If their tastes run in the channels indicated by the interest they display, they should exchange occupations, for both industries would be benefited thereby.

The impetus which has been given to the higher branches of agricultural work in this State in the past five years should begin to make itself felt in the coming fairs. It is safe to say that those few cultivators of the soil who do not know far more about their business now than they did three years ago. The value of their lands for higher uses than they had been put to, has been learned, and the result has been a vast increase in the acreage devoted to horticulture, especially in the northern part of this State. The relative values of different kinds of fruits have, also, been learned, and better methods of cultivating them are known. All of these circumstances should make themselves felt in the exhibitions of products of the land, which should be an unmistakable index of the progress of the State. Farmers and fruit-growers should see to it that the exhibits of the present year mark a new era in the history of county fairs.

Sullivan Gets His Money.

New York, July 24.—John L. Sullivan came into possession of \$20,000 yesterday afternoon. It was the stake money in the Sullivan-Kilrain fight, and was paid over by the stakeholder, Oridge, at his establishment in West Twenty-eighth street. The fighter then invited all hands out to drink his health in a bumper of champagne.

Sullivan was also given the Police Gazette diamond belt. He says he will take out the stones and melt the "collar" into a solid mass.

Sullivan, flushed with his recent victory, is anxious for fresh laurels in the pugilistic world.

Lumley said that Sullivan would accept the challenge of Jim Smith, England's champion, and would present him with \$2,500 if he would come to America and fight Marquis of Queensbury rules before the California Athletic Club.

Pension Commissioner Tanner is desirous of a free and full investigation, and when the members of the Commission called on him Tuesday, he directed Captain Fisher, the chief clerk of the office, to provide room for them and afford them all the facilities needed in carrying on the work of their investigation, which will cover the period of a year back, and a still longer period if it is deemed necessary. It is stated upon rather good authority that a rather loose practice of re-rating was begun under Commissioner Black, and gradually became more and more liberal. When Commissioner Tanner came in, he announced his policy of great liberality to the old soldiers in the matter of re-rating which was then going on, and it gave it even greater scope and liberality.

According to a telegraphic dispatch sent from New York to Cincinnati ex-President Cleveland proposes to take a hand in the Ohio campaign of this year and try and defeat the re-election of Governor Foraker.

Minister Whitelaw Reid made a beautiful title speech in Paris on the evening of July 4th, addressing the Frenchmen in French, and then talking to his countrymen in English.

The Democrats of Virginia are so split up over the tariff that they do not dare to frame a platform for their State campaign.

Manager Piper is arranging dates in the Nevada circuit for Joe Mantel, Ross Coghlan, Margaret Maher and Edward Harrigan.

The funeral of the late J. T. Reed, instead of taking place as at first intended, on Saturday, has been postponed until Sunday.

The Carson Tribune says the coming department in the Mint will probably not be in readiness for work until the second week in August.

Miss C. Harrison, proprietor of the Nevada restaurant, east side Virginia street, will give a chicken dinner every Sunday, for twenty-five cents.

Extensive repairs and explorations are in progress in the Savage mine, preparing for the resumption of ore extraction when crushing power is again available.

Mrs. J. W. Mackay and her eldest son sailed from Queens town for New York on the City of Pagan last Wednesday. The steamer is expected at New York on the 29th or 30th instant.

The looking glass that hangs near the counter in the tavern scene in "Old Jed Proddy" is called a study in antiquity and the engravings on the parlor walls are aged at least a hundred years.

Capt. Moger, formerly manager of New-castle Fruit Co.'s works, where he had to leave on account of the health of his family, is now following the same business at Vacaville, Solano county.

M. M. Frederick, who has suffered or prospered with the Comstock during all its periods of stagnation or prosperity, has finally established himself at Seattle, and is daily attending to business behind the counter.

There is a lively demand for dwelling houses. Some capitalists would make money by erecting a few tiny residences in Reno. Good cottages of five or six rooms command a rental of \$20 per month at present.

The annual report of the Assessor, submitted yesterday, shows the value of personal property in San Francisco to be \$55,000,000, an increase over last year of over \$3,000,000; value of real estate, \$240,800,000, an increase over last year of over \$29,000,000.

At a meeting of the Executive Committee of the National Grange Association Thursday it was unanimously voted to hold their next annual session at Sacramento, Cal., to commence November 13, arrangements to be made by the State Grange Society, and the California State Board of Trade to entertain them.

Tom Bowers' Springs.

A few weeks ago the Carson Tribune contained a report of the spring of water discovered by Tommy Bowers, of Jacks valley. Tommy purchased 40 acres of land near his old place and removed the well-known roadside Pony Saloon there. A short time after he put men to work drilling under the road and struck a good flow of water, sufficient for his horse troughs and house use and within the past few days has struck another flow for which he has refused \$750. The statement of the Tribune that water can be procured anywhere in Jacks and Carson valleys by drifting into hillsides wherever green grass is constantly growing seems about to be verified and the chances are that Tommy Bowers will become a rich man in his old age. The old Pony Saloon is now called Bowers' Mansion.

An Ivory Mine.

The Chronicle says: George Williams, the noted Comstock miner, miner and fish historian, who first attained celebrity as the slayer of the flying snake of Sutter Springs, has recently returned from a hunting trip in the Sierras, bringing with him two huge ivory tusks, which evidently belonged to a race of mammoth pachyderms once inhabiting that region. Mr. Williams says he can collect a wagonload of ivory in the vicinity where he found the tusks, and will return in a few days with a team for that purpose.

An Unlucky Bob.

The Enterprise, of Friday, has the following: Robert Gordon, who worked in the Gold Hill mine, last Wednesday fell from the roof of a cabin at Clinton, near Truckee, and broke a bone of his leg near the ankle.

Bob was a good, steady workman here, but in an unlucky hour he was made Orator of the Day on a certain Fourth of July, and it was years before he could be induced to work afterwards.

OF INTEREST TO NEVADA.

Proposed Amendments to Mining Laws.

Below will be found a copy of a proposed bill to amend the mining laws. The original of the bill passed the Senate May 24, 1888, and while pending in the House Committee on Mines and Mining it was extensively commented upon by the press, miners, etc. In conformity with the suggestions offered Senator Stewart re-drafted the bill, and after its examination and approval by Senator Teller he submitted it to the House Committee, at a meeting held January 10, 1889. It was carefully considered by the committee, amended in one or two slight particulars and its Chairman authorized to report it to the House. The bill published contains all the amendments made by the committee and Senator Stewart.

As it failed to become a law he will re-introduce it in the next session of the Senate, subject to such modifications as it may be deemed necessary to make. He is anxious to have its provisions fully understood and criticized by all interested in mining, with the view of making it as complete and satisfactory as possible.

Persons who can think of any changes that should be made in this all-important bill should write their views in regard to it to Senator Stewart, and offer any suggestions they may see fit. As Senator Stewart will be traveling for the two next months with the Senate Irrigation Committee letters in response to this should be addressed to Hon. Wm. M. Stewart, Washington, D. C. They will be held here until he arrives: A Bill to amend Chapter 6 of Title 32 of the Revised Statutes relating to mineral lands and mining resources.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 2,319 of the Revised Statutes be amended by adding thereto the following: "But no person shall acquire by location more than 1,500 feet in length on the same vein, nor shall any person relocate a claim which he has previously located."

Sec. 2. That Section 2,324 of the Revised Statutes be amended so as to read: "Sec. 2,324. The miners of each mining district may make regulations, not in conflict with the laws of the United States, or with the laws of the State or Territory in which the district is situated, governing the location, manner of recording the amount of work necessary to hold possession of a mining claim, subject to the following requirements:

"The location must be distinctly marked on the ground by posts or monuments so that its boundaries can be readily traced. All records of mining claims hereafter made shall contain the name or names of the locators, the date of the location, and such a description of the claim or claims located as will identify the claim."

"On each claim located after the 10th day of May, 1872, and until payment of the purchase money and a certificate of entry has been issued therefor, not less than \$100 worth of labor shall be performed or improvements made during each year. On all claims located prior to the 10th day of May, 1872, \$10 worth of labor shall be performed or improvements made during each year for each 100 feet in length along the vein until payment of the purchase money and a certificate of entry has been issued therefor; and for each 20 acres of placer claims, and for each subdivision thereof less than 20 acres, \$25 worth of labor shall be performed or improvements made during each year until payment of the purchase money and a certificate of entry shall be issued therefor."

"But where several adjoining claims, not exceeding five, whether the same be lode or placer claims, are owned or held by the same person, association or corporation, and the sum of \$5,000 or more is expended in any one year in good faith for the development of all of the claims so owned or held, no more than \$100 worth of labor shall be performed or improvements made on the several claims so owned or held during each year."

"The year within which the annual labor or improvements required to be performed or made by this section shall commence at 12 o'clock meridian on the first day of October of each year; Provided, That upon claims located previous to the first day of March in any year the annual labor or improvements shall be performed or made on such claim for that year prior to 12 o'clock meridian of the first day of October next succeeding; and upon claims located after the last day of February and prior to 12 o'clock meridian of the last day of October in any year the annual labor or improvements required shall be performed or made prior to 12 o'clock meridian of the first day of October, in the year 1889, on claims upon which the annual labor or improvements were performed or made in the year 1889, but after the first day of October, in the year 1890, the full amount of labor or improvements required by this Act shall be performed or made upon such claims as in all other cases during each year prior to 12 o'clock meridian of the first day of October. In case the first day of October falls on any Sunday or any legal holiday the following Sunday day shall be construed as the first day of October within the meaning of this Act."

"When the labor required by this Act shall have been performed, or the improvements made, an affidavit shall be filed within thirty days after the time limited for performing such labor or making such improvements, with the Recorder of the mining district in which such claims are situated, and if there be none, then with the Recorder of Deeds of the county in which the claim or mine is situated, particularly describing the labor performed and improvements made, and the value thereof, which affidavit shall be prima facie evidence of the facts therein stated. And upon a failure to comply with these conditions the claim or mine upon which such failure occurred shall be open to relocation in the same manner as if no location had ever been made; provided, that the original locators, their heirs, assigns or legal representatives do not resume work upon the claim after such failure and before such location, and continue the same with reasonable diligence until the required amount of labor shall have been performed or improvements made."

"Upon the failure of any one of several co-owners to contribute his proportion of the expenditures required hereby, the co-owners who have performed the labor or made the improvements may, at the end of the year, give such delinquent co-owner personal notice in writing or notice by publication in the newspaper published nearest the claim, for at least once a week for ninety days, and if at the expiration of ninety days after such notice in writing or publication such delinquent shall fail or refuse to contribute his proportion of the expenditures required by this section his interest in the property shall become the property of his co-owners who have made the

required expenditures, upon recording a copy of such notice, together with an affidavit showing personal notice or publication, as the case may be, with the Recorder of the mining district in which such mining claim is located, and if there be no such office, then with the Recorder of Deeds of the county in which such mining claim is situated. When any person or company has developed and exposed a lode and expended \$100 worth of labor thereon said person or company may run a tunnel for the purpose of developing such lode owned by said person or company, and the money so expended in said tunnel shall be considered as expended on said lode, and such person or company shall not thereafter be required to perform labor or make improvements on the surface of said lode in order to hold the same, so long as work is continued in such tunnel."

Sec. 3. That 2,325 of the Revised Statutes be so amended as to read: "Sec. 2,325. A patent for any land claimed and located for valuable deposits may be obtained in the following manner: Any person, association or corporation authorized to locate a claim under this chapter, having claimed and located a piece of land for such purposes, who has, or has complied with the terms of this chapter, may file in the proper Land Office an application for a patent, under oath, showing such compliance, together with the plat and field notes of the claim or claims in common, made by or under the direction of the United States Surveyor General, showing accurately the boundaries of the claim or claims, which shall be distinctly marked by monuments on the ground, and shall post a copy of such plat, together with a notice of such application for a patent, in a conspicuous place on the land embraced in such plat previous to the filing of the application for a patent, and shall file an affidavit that such plat and notice have been duly posted, and shall also file a copy of the notice in such Land Office, and shall thereupon be entitled to a patent for the land, in the manner following: The Register of the Land Office, upon the filing of such application, plat, field notes, notices and affidavits, shall publish a notice that such application has been made, for the period of 60 days, in a newspaper to be by him designated as published nearest to such claim; and he shall also post such notice in his office for the same period. The claimant at the time of filing this application, or at any time thereafter within the 60 days of publication, shall file with the Register a certificate of the United States Surveyor General that \$500 worth of labor has been expended or improvements made upon the claim by himself or grantor; that the plat is correct, with such further description by such reference to natural objects or permanent monuments as shall identify the claim, and furnish an accurate description, to be incorporated in the patent. At the expiration of the 60 days of publication, the claimant shall file his affidavit showing that the plat and notices have been posted in a conspicuous place on the claim during such period of publication. If no adverse claim shall have been filed with the Register and Receiver of the proper land office at the expiration of the 60 days of publication, it shall be assumed that the applicant is entitled to a patent, and that no adverse claim exists, and upon the payment to the proper officer of \$5 per acre he shall receive a certificate of entry; and thereafter no objection from third parties to the issuance of a patent shall be heard except it be shown that the applicant has failed to comply with the terms of this chapter. But no more than 3,000 feet in length along the vein of claims located prior to the 10th day of May, 1872, and not more than the extent of one claim 1,500 feet in length by 600 feet in width, located after said date shall be included in the same application of placer ground shall be included in the same application for a patent."

Sec. 4. That Section 2,324 of the Revised Statutes be amended by adding thereto the following: "And the surveyors appointed under the provisions of this section shall have power to administer oaths to their assistants."

Sec. 5. That Section 2,335 of the Revised Statutes be amended so as to read: "Sec. 2,335. All affidavits required to be made under this chapter may be verified before any officer authorized to administer oaths in any State or Territory of the United States or in the District of Columbia, and all testimony and proofs may be taken before any such officer, and when duly certified by the officer taking the same, shall have the same force and effect as if taken before the Register and Receiver of the Land Office. In cases of contest as to the mineral or agricultural character of land, the testimony and proofs may be taken, under such regulations as the Commissioner of the General Land Office may prescribe; Provided, That the presence of rock in place bearing gold, silver, platinum or any other valuable mineral, shall be prima facie evidence that land containing the same is mineral in character; and veins of rock in place bearing such minerals and appearing on the surface of the ground, or in excavations made thereon, shall be regarded within the meaning of Section 2,335 of the Revised Statutes as veins or lodes known to exist."

Sec. 6. Amend Section 2338 of the Revised Statutes so as to read: "Sec. 2338. As a condition of sale each patentee shall reserve the right of way through or over any mining claim for roads, ditches, canals, cuts, tunnels and other easements for the purpose of working other mines: Provided, That any damage occasioned thereby shall be assessed and paid in the manner provided by the laws of the State or Territory in which such mine is situated for assessments or payments for damages taken for public use under the right of eminent domain. And the rights and easements heretofore reserved under the provisions of this section (2338 of the Revised Statutes) in patents heretofore issued shall be regulated and made available as herein prescribed."

WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in getting up in Cheap John houses or irresponsible parties at expensive parties, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at a price? No more! In the world is giving such unsupervised satisfaction for purifying the blood as BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

OSBURN & SHOEMAR, R. Druggists.

When baby was sick,
We gave her Castoria.
When she was a Child,
She cried for Castoria.
When she became Miss,
She clung to Castoria.
When she had Children,
She gave them Castoria.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

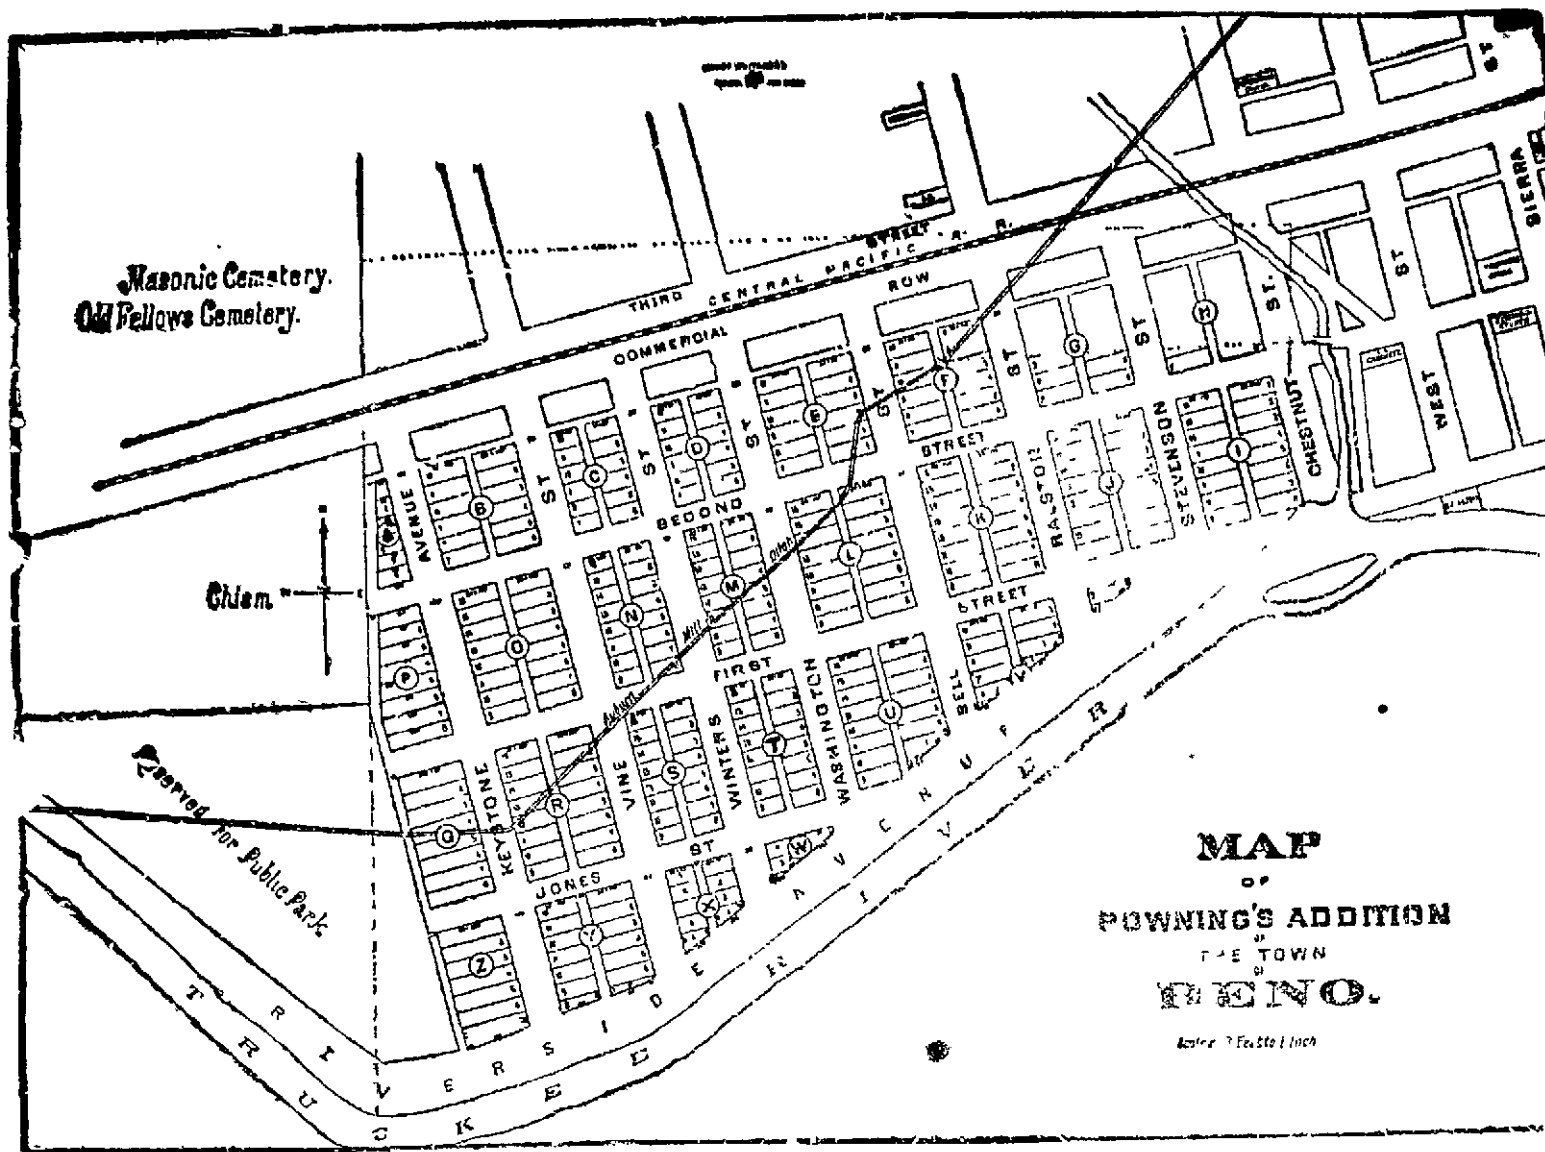

Peculiar
Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients. Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said: "One Hundred Doses One Dollar." Medicines in large and smaller bottles requiring few or many doses, and none produce as good results as Hood's. Peculiar in its medicinal merit. Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Is Peculiar to Itself
Peculiarities "good name" at home—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its record of sales abroad—no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly. Do not be induced by other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

RULES OF THE TRACK.

Entrance to all trotting and running races to be made to the Secretary at 9 o'clock P. M. on Tuesday, August 20, 1889.

All entries to be made in writing, to give color and name of horse. Also name and residence of owner and in running races colors to be worn by rider, and any other particulars that will enable the audience to distinguish the horse in the race.

Writes "Entries to Races," on outside of envelope and seal.

Entrance fee ten per cent of purse, to accompany entries.

In all races, 5 or more to enter and 3 or more to start.

National Association rules to govern trotting, but the Board reserves the right to alter a less number than five to fill, by a withdrawal of a proportionate amount of the purse. Entrance fee, per cent. on purse, to accompany nomination.

If, in the opinion of the Judges, any race cannot be completed on the closing day of the Fair, it may be continued or declared off at the option of the Judges.

In all races noted above, five or more paid up entries required to fill and three or more horses to start. But the Board reserves the right to hold entries and start a race with a less number and deduct a proportionate amount of the purse.

When less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 65% to the first and 35% to the second.

Rules of the State Agricultural Society to govern running races except where conditions named are otherwise.

The Board reserves the right to change the order of each day's races.

Any person not intending to start his horse must notify the Secretary in writing on or before 8 o'clock the evening previous to the day of the race. Horses entered in races can only be withdrawn by consent of the Judges.

For a walk over in any race a horse shall be entitled to his own entrance fee and one-half of the entrance received from the other entries for said purse, and a horse winning a race entitled to first money only, except when distancing the field, then entitled to first and third money only. A horse who wins but one money under any other circumstances.

The attention of all parties interested is particularly called to the rules of the National Trotting Association, under the provisions of which, except as otherwise specified, all matters appertaining to the trotting races will be conducted.

Races to begin each day at 1 o'clock P. M. sharp.

J. W. THOMPSON, Pres. dent.
J. D. BYRIS, Vice-President.
